Matt McNair & Doug
Table captain:

Private property, etc.
Management Free Disclaims, Public Education, one-time rebate for facilities installed on successfully incentivized the public to "own"operate, and maintain these assets (stormwater green infrastructure). Have there been successful Public/Private partnerships which help mitigate these expenditures (and if so, how is QA/QC of maintenance and operations operation and maintenance costs. How are regional planning for and accommodate small installations (as opposed to large regional facilities) result in significant increase in short description: The increasing implementation of GSI and the trend towards multiple...

Wife: Conditions of our proposal.

- Greater fee. - Doesn't work well. - "Get better"
- Logistics work to ensure 100% business because

Mountain, Parousia, Strength - no cargo - very difficult to

- Good goods in our pool - very difficult to

For organizational issues, access, plus

Send plan for maintenance team for delivery

- not at present required. At 10%
